PROFESSIONAL SUMMARY

Frontend Developer with approximately 3 years of hands-on experience building responsive, production-ready web applications using React.js, Next.js, and TypeScript. Experienced in reusable component architecture, modular frontend development, REST API integration, State and Server State management, testing, and performance optimization. Experienced collaborating in distributed teams and European projects alongside frontend, backend, and design teams, with a focus on maintainable code, responsive UI, and scalable frontend architecture.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Next.js App Router, Tailwind CSS, CSS Modules, ShadCN UI, Mantine UI

State & Data: Zustand, Redux Toolkit, Context API, TanStack Query, Axios, REST APIs

Forms & Validation: React Hook Form, Zod

Testing & Documentation: Jest, React Testing Library, Storybook

Backend & Services: Supabase, PocketBase, JWT Authentication

Tools & Workflow: Git, GitHub, GitLab, pnpm, npm, Figma, CI/CD

PROFESSIONAL EXPERIENCE

Frontend Developer — Etmita UG

December 2025 – Present | Remote

- Developed and maintained Production web applications for European projects using React.js, Next.js, and TypeScript within distributed frontend, backend, and design teams.
- Built base, modular, and reusable components aimed at creating UI consistency, increasing maintainability, and improving development efficiency across projects.
- Developed responsive user interfaces with Tailwind CSS and ShadCN UI, focusing on Clean Code and maintainable structure.
- Integrated REST APIs and managed Client State and Server State using TanStack Query, Redux Toolkit, Context API, Zustand, and Axios in selected projects.
- Implemented form and validation processes based on Schema with React Hook Form and Zod in required projects.
- Developed Unit Tests and Component Tests with Jest and React Testing Library to increase reliability and maintainability of frontend code.
- Documented reusable components and development patterns with Storybook to improve coordination between design and development teams.
- Collaborated with backend and design teams through Git Workflow, including Branching, Pull Request, Code Review, and developing new features.

Frontend Intern — Cyrays Co.

July 2025 – September 2025

- Developed responsive user interfaces using Next.js, React, and Tailwind CSS.
- Identified and fixed frontend bugs and improved existing components to increase stability and user experience.
- Applied component-based development practices to create reusable and maintainable code.
- Participated in Git Workflow processes, including Branching, Pull Request, and Code Review.

SELECTED PROJECTS

Menuvita — Digital Restaurant Menu SaaS Platform ([Project Link](#), [Demo Link](#))

Next.js 16 · TypeScript · Supabase · React Hook Form · Zod · ShadCN UI · Tailwind CSS

- Developed a multi-tenant restaurant platform with a management dashboard for managing restaurants, categories, and menu items.
- Developed a customer-facing digital menu with QR Code access, menu search, and category-based filtering.
- Used Supabase for authentication, data management, and File Storage-related processes.

- Implemented forms with React Hook Form and Zod and managed Server State with TanStack Query.
- Developed a responsive, RTL-supported user interface with Tailwind CSS and ShadCN UI, including light and dark mode support.

Torino — Tour Booking Platform ([Project Link](#) , [Demo Link](#))

Next.js · React · JavaScript · REST API · Axios · Context API

- Developed dynamic interfaces for searching and viewing tours, tour details, and booking-related user flows using Next.js and React.
- Integrated REST APIs with Axios and managed application State with Context API.
- Reduced page load time from approximately 3.5 seconds to 1.2 seconds through Lazy Loading and image optimization.
- Used Next.js Rendering capabilities and SEO techniques aimed at improving Performance and Search Visibility.

Admin Panel — Management Dashboard ([Project Link](#) , [Demo Link](#))

Next.js · React · TypeScript · JWT · REST API

- Implemented JWT-based authentication with role-based access and protected routes.
- Developed CRUD functionality for managing products and data, connected to REST API.
- Implemented Pagination, search, and Filtering for better data management and increased dashboard efficiency.
- Structured the application based on reusable components and modular frontend architecture.

Survey App — Interactive Survey Application ([Project Link](#) , [Demo Link](#))

Next.js · React · TypeScript · Zustand · Tailwind CSS

- Developed a lightweight, multi-step survey application focused on State management, response storage, and real-time score calculation.
- Implemented global State management with Zustand for managing responses, progress status, and survey flow.
- Used Local Storage for persistently storing responses and preserving survey state across future visits.
- Implemented real-time score calculation at both the section level and overall survey level, along with instant Feedback.
- Developed a responsive and interactive user experience with Next.js, React, TypeScript, and Tailwind CSS.

EDUCATION

B.Sc. in Soil Engineering

University of Tehran | In Progress

COURSES & TRAINING

- Frontend Development Bootcamp — BotoStart.ir | December 2024 – July 2025
- Web Design III — Tehran Technical Complex, Central Branch | JavaScript and ES6 | Score 95/100 | August – November 2023
- 400+ hours of specialized training in HTML, CSS, JavaScript, TypeScript, React.js, and Next.js

LANGUAGES

English: Upper-Intermediate (B2)

Persian: Native
